Automatic Filling And Sealing Machine+Pillow sachet packing machine

To:Zia khan

Date: 2026.06.08

Machine pictures for your reference	Parameter	QTY	Price:FOB Ningbo by sea in LCL (USD)	Remarks:
Automatic Filling And Sealing Machine 	Fully honey spoon filling and sealing machine Type: YW-R2 double-spoon Operation mode: spoon feeding automatically, automatic filling, automatic sealing Output: 1800-1900 cups/hour Filling capacity: 5-20g Sealing film: pre-cut film Power: 1.5 kW Voltage: 220 v / 50 HZ (customizable) Air consumption: 60 liters/minute Accuracy: ± 0.1 g Nitrogen filling function: Yes. Dimensions: 1400*1600*1750mm Weight: 500KG The UV light life time is 2000hours.	1	\$7600	1.50L heating hopper, which has function of temperature adjustment. 2.No filling without spoon 3.Alarm for no film
Automatic Filling And Sealing Machine 	Fully honey spoon filling and sealing machine Type: YW-R1 single spoon Operation mode: spoon feeding automatically, automatic filling, automatic sealing Output: 800-900 cups/hour Filling capacity: 5-20g Sealing film: pre-cut film Power: 1.5 kW Voltage: 220 v / 50 HZ (customizable) Air consumption: 60 liters/minute Accuracy: ± 0.1 g Nitrogen filling function: Yes. Dimensions: 1400*1600*1750mm Weight: 500KG The UV light life time is 2000hours.	1	\$6700	1.50L heating hopper, which has function of temperature adjustment. 2.No filling without spoon 3.Alarm for no film

Semi-Automatic Filling And Sealing Machine 	Type: YW-R2 double-spoon Operation mode: spoon feeding by hand , automatic filling, automatic sealing Output: 1800-1900 cups/hour Filling capacity: 5-20g Sealing film: pre-cut film Power: 1.5 kW Voltage: 220 v / 50 HZ (customizable) Air consumption: 60 liters/minute Accuracy: ± 0.1 g Nitrogen filling function: Yes. Dimensions: 1400*1600*1750mm Weight: 500KG The UV light life time is 2000hours.	1	\$7150	1.50L heating hopper, which has function of temperature adjustment. 2.No filling without spoon 3.Alarm for no film
Semi-Automatic Filling And Sealing Machine 	FType: YW-R2 single-spoon Operation mode: spoon feeding by hand ,automatic filling, automatic sealing Output: 800-900 cups/hour Filling capacity: 5-20g Sealing film: pre-cut film Power: 1.5 kW Voltage: 220 v / 50 HZ (customizable) Air consumption: 60 liters/minute Accuracy: ± 0.1 g Nitrogen filling function: Yes. Dimensions: 1400*1600*1750mm Weight: 500KG The UV light life time is 2000hours.	1	\$6450	1.50L heating hopper, which has function of temperature adjustment. 2.No filling without spoon 3.Alarm for no film
Description of the pillow packing machine. 	New fully automatic pillow packaging machine with date coding machine Model: YW-F-07 Application scope: food/medical supplies/daily necessities/accessories/hardware, etc. Sealing mode: back seal Film width: Max.350mm Bag length: 65-190 or 120-280mm Bag width: 50-160mm Product height: Max.45/80mm Machine weight: 300kg Machine size: (L)3770*(W)720*(H)1450mm	1	\$4500	1. the price including the connection of the pillow packing machine and automatic filling sealing machine. 2. Outer packaging with coding.

Automatic Filling And Sealing Machine+Pillow sachet packing machine

Filling nozzle

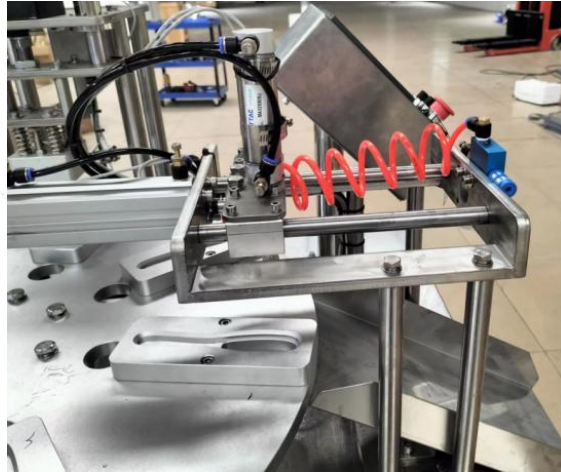

Suck pre-made foil up to the spoon

Heat sealing

Finished products conveying

Double-layer stainless steel insulation barrel, with water and heating at constant temperature. It can be placed on the ground

Temperature settings can be adjusted

Each filling nozzle can be set to a different filling volume

(Machine pictures for your reference)

YW-series automatic filling and sealing machine is suitable for filling various types of coffee capsules, honey spoon, etc. It can automatically complete the mechanical automatic spoon dropping, automatic filling, automatic film suction, sealing, automatic output and other functions of the spoon. It has the characteristics of high sealing strength, good sealing performance, low failure rate, and small footprint. It is the first choice product for enterprise automation production.

Working process:

- 1-Automatic spoon dropping into the mold(semi-automatic by hand)
- 2-Empty spoon detection: No spoon, no filling
- 3-UV disinfection
- 4- Automatic refilling of non-filled materials (equipment can be added)
- 5-Automatic quantitative filling
- 6- Adsorption of aluminum foil film (no film alarm and shutdown)
- 7- Finished product output
- 8- Finished products be connected to detection, packaging, etc.

Note 1: Our machines will be produced according to your requirements, pictures are shown for reference.

Note 2: All food contact parts are made of stainless steel 304.

Screen

- 1-PLC+touch screen control, one-key operation, real-time monitoring.
- 2-English and Chinese language display, other languages can be added.
- 3-Automatic interface, easy to operate.
- 4-Manual interface, easy for staff to debug and test.
- 5-Parameter interface (with password permissions), permanently saved, no need to worry about data loss.
- 6-Real-time inventory of finished product quantities.
- 7-When the set target output is reached, it will stop automatically.
- 8- Remote control available (features that can be added).

Safety	1-A safety dust cover can be configured, the machine will automatically stop when the door is opened. 2-Equipped with work indicator light. 3-Protection: The compressed air is disconnected and the machine does not work. 4-Protection: If the compressed air pressure is insufficient, the machine will shut down. 5-Protection: The voltage phase connection is incorrect and the machine cannot work. 6-Protection: Tracks cylinder movement to prevent part failure.
Filling	1-All parts in contact with coffee powder are made of stainless steel 304. 2-Motor driven screw, precision filling with high accuracy 3-The number of fillers can be easily adjusted by setting different number of turns. 4-No spoon no filling to prevent honey wastage. 5-The standard honey spoon edge cleaning system: automatically cleaned after filling to achieve a good sealing effect. 6-The hopper is installed on a removable pallet, and workers can easily remove materials and clean the hopper. 7-Vacuum feeder to transport coffee from the bucket to the hopper automatically
Sealing	1-Pneumatic sealing: each sealing head is controlled by an independent cylinder. 2-Specially designed sealing unit: the spoon sealing surface is uniform and beautiful. 3-High quality copper head with high thermal conductivity and stable temperature. 4-High quality components: independent temperature controller and solid state relay. 5-Sealing time, sealing temperature and sealing pressure can all be adjusted.
Others	1-Fill with nitrogen and can be replenished at multiple stations to obtain as much nitrogen as possible. 2-The machine comes with casters and foot cups, which can be easily placed where you need and fixed with the foot cup. 3-English version operating manual, maintenance manual, electrical and pneumatic diagrams. 4-We can provide more procedural and structural content if required. 5-Video on how to install and operate the machine.

	Name	QTY
<u>Spare parts</u>	Hex wrench	1
	Thermocouple	4
	heating wire	8

	suction cup	20
	Connector	8
	spring	8
Remark : The above quantities are slightly adjusted according to different machines.		

Main configurations:

No.	Name	Brand	Remark:
1	PLC	Xinjie	China
2	touchscreen	Xinjie	China
3	temperature controller	Chint	China
4	solid state relay	Chint	China
5	Intermediate relay	Chint	China
6	diffuse reflection sensor	Chint	China
7	stepper motor	Jiemeikang	China
8	switching power supply	MEAN WELL	Taiwan, China
9	vacuum valve	Airtac	Taiwan, China
10	Solenoid valve	Airtac	Taiwan, China
11	cylinder	Airtac	Taiwan, China
12	push button switch	Chint	China
13	Cam divider	Jieqin	China
Remark	1) Different production batches; 2) Different purchasing batches; 3) Number of parts in stock; 4) Replacement; 5) etc. The above reasons may cause some parts to be different without further notice. We guarantee that they are in the same functionality and with the same after-sales service.

- 1) We will take professional operation video to teach customer how to run and change the mould (This is unique service of our company compared with others).

- 2) We can set different language on the touch screen (if machine has) if the customer can't understand Chinese or English (Polish for example).

- 3) 24/7 Online service and installation and training on your site. We will dispatch engineers to your site for machine installation and commissioning, and also do the training for your technicians.
- 4) We make guarantee of the machine for 12 (twelve) months. During this Warranty period, the seller will provide free spare parts that cause by the machine's quality within 10 days by fast

courier upon receipt of buyer's notice. We will also provide one set of spare parts/wear & tear parts to customer along with the shipment of the machine.

Customer Feedback

Alisa's Feedback:

Hi Alisa.
We have suspended the order of the spare parts for the entry of next year since possibly we will carry it out together of a new machine.
All the best.

Ms. Song's Feedback:

Dear Ms. Song
How are you!
I am very happy to tell you that our technicians are very happy with the GGS-118 (5 filling heads)
Please tell me if it is possible to attach a printer to the machine, that prints on the ampule, the name of the product

Ava's Feedback:

From: [Redacted]
Date: Thu, Nov 25, 2021 04:19 PM
To: "Moly"<sales@grand-packing.com>;
Subject: Request information

Hello Ava,
hope you're fine.
We are interested in buying a tri-layer tablet press machine.

Suyi's Feedback:

Hi Suyi,
The machine works fine
That's great.
I don't have any problem so far
OK, if need our support, just contact us.

Another Customer's Feedback:

Tôi muốn mua thêm 1 máy như vậy
我想再买一台这样的机器。
Bạn báo giá cho tôi
你给我报个价吧
I wanna buy that machine

Another Customer's Feedback:

Hello dear
We finally received the machine
And made some tests
And is working very well
Thank you
I was wondering if you could make a second mold for us

Exhibition at home and abroad
